Harshan Kamesh - 12th grade student at Monroe Township High School

Objective

Ambitious high school student at Monroe Township with a focused interest in Mathematics, and Economics. Looking to assist in research and development to provide meaningful support to innovative projects with real world impact. Seeking an opportunity to bridge academic learning with practical experience to grow my career path and make an impact.

Experience

MathCORP | *Teaching Assistant*

- Received the Excellence in Teaching Award for outstanding performance and dedication to student progress. Guided 8th graders through advanced curricula, ensuring mastery of Algebra II and introducing foundational precalculus concepts. Independently created and distributed custom geometry enrichment lessons covering topics like SOHCAHTOA and special right triangles. Fostered a highly supportive classroom environment prioritizing conceptual mathematical intuition and student confidence over memorization.

Informal teaching for a group of 8 middle school students — *Teacher*

Bank of Begonia— *Lead Product Developer*

- Bank of Begonia is a ticket-based mini banking system for carnivals and events that uses QR codes and a central server to let users receive, spend, and transfer digital tickets securely. It also allows organizers and stall owners to view real-time statistics for better management.

Balaji Temple, Monroe — *Teacher*

- Taught economics to kids and adults (ages 12-19). Scheduled weekly session for 8 weeks. Explained complex ideas in a clear and understandable way. Worked collaboratively with another teacher.
